

MICHAEL BENJAMIN
EPK

Presstext

Michael Benjamin makes raw, cinematic songs about love, chaos and ordinary life. His music moves between restraint and release, built on presence rather than polish, carried by a voice that shifts from fragile to explosive within a single performance.

On stage, he performs with direct intensity. Songs are not presented as fixed pieces but as moments unfolding in real time, shaped by tension, silence and instinct.

His music has reached millions of listeners and appeared on TV shows such as Shameless, but his focus remains the live experience, something real happening in front of people.

His new album Choreography of a Lover (April 2026) explores staying when clarity disappears. It is a record about tension rather than resolution, choosing performance and presence over perfection..
